

Our Know-how – Your Advantage

The specially selected compounds are your ideal material solution for applications in cleaning devices. Due to their excellent haptic, good sealing options and slip resistance, they are your perfect choice. The compounds are available in different hardness and colors.

- Pleasant grip and soft touch feel
- Safety and ergonomical grip – nonslip
- Excellent closure and sealing function
- Good chemical resistance
- Does not scratch tiles and windows
- Reliable and durable quality
- Available in natural colors or pre-colored
- In-process recycling possible
- Free of PVC and phthalates
- Adhesion to PP or SAN, ASA
- Available in different Shore A ranges
- Alternative to silicone or rubber

Yvonne Stockhammer

Application Specialist

“For window squeegees it is very important that the handle lies well and ergonomically in the hand and that you clean without streaks. Our compounds convince with a pleasant haptic and a versatile processability in multi-component injection molding.”

Typical Applications

- Handles for window or shower wipers
- Sealings for water tanks
- Lips

Technical Data

		TF5CGN	TF5STE	TC5MLB
Hardness	Shore A	49	54	50
Density	g/cm ³	1.100	0.890	1.100
Tensile Strength	MPa	6.0	11.0	3.5
Elongation at Break	%	850	850	600
Tear Resistance		14.0	17.0	13.0
Adhesion to		PP	PP	PC, ABS, ASA, SAN
